2. For each component identified in Table 1:
 - a. Describe the function of the component and identify any and all means the component uses to reduce vehicle exhaust emissions including, but not limited to, catalysts and ports that allow for the use of oxygen sensors. In instances where multiple components have been or are currently offered for sale for a motor vehicle of a single model year, describe how the component designs, properties, and operational parameters or characteristics differ. Also describe how the component designs, properties, and operational parameters or characteristics differ from one year to the next.

- b. Provide copies of all documentation for each component, including, but not limited to, technical specifications, installation and operating instructions, and warranty information.
- c. Identify by name all websites, magazines, trade publications, and any other media in which ModBargains advertised the component from January 1, 2016, through July 31, 2016.

“THESE PARTS ARE LEGAL FOR USE ONLY IN COMPETITION RACING VEHICLES AS DEFINED UNDER CALIFORNIA LAW, AND ARE NOT LEGAL FOR USE IN ANY OTHER MOTOR VEHICLE.”

Provide references to all materials containing such statements.

- e. Indicate whether the component is described by ModBargains in any documentation, marketing materials, advertisements, websites, or other media with any type of emission control system “delete”, “catless”, “block-off”, or bypass, including but not limited to advertisements on ModBargains’s website, third party websites, in published magazines or brochures, or in any way used to offer for sale or disseminate information about the sale of any emission control system “delete”, “catless”, “block-off”, or bypass.
- 3. Provide a list of all persons (as defined in Exhibit A) that are affiliated with ModBargains. Describe the business relationships with these persons.
 - 4. Provide a copy of your articles of incorporation and by-laws.
 - 5. Identify your current net worth and annual revenue for the past calendar or fiscal year.
 - 6. Identify each person responsible for responding to this Request for Information, including their title, and the request(s) to which they responded.

EXHIBIT D
CONFIDENTIAL BUSINESS INFORMATION

You may assert a business confidentiality claim covering all or part of the information you provide in response to this Request for Information for any business information entitled to confidential treatment under Section 208(c) of the CAA, 42 U.S.C. § 7542, and 40 C.F.R. Part 2, subpart B. Under Section 208(c) of the CAA, you are entitled to confidential treatment of information that would divulge methods or processes entitled to protection as trade secrets. Under 40 C.F.R. Part 2, subpart B, business confidentiality means “the concept of trade secrecy and other related legal concepts which give (or may give) a business the right to preserve the confidentiality of business information and to limit its use or disclosure by others in order that the business may obtain or retain business advantages it derives from its rights in the information.” *See* 40 C.F.R. § 2.201(e).

Information covered by a claim of business confidentiality will be disclosed by EPA only to the extent, and by means of the procedures, set forth in Section 208(c) of the CAA and 40 C.F.R. Part 2, subpart B. EPA will construe your failure to furnish a business confidentiality claim with your response to this Request for Information as a waiver of that claim, and the information may be made available to the public without further notice to you.

To assert a business confidentiality claim, you must place on (or attach to) all information you desire to assert as business confidential either a cover sheet, stamped or typed legend, or other suitable form of notice employing language such as “trade secret,” “proprietary,” or “company confidential” at the time you submit your response to this Request for Information. Allegedly confidential portions of otherwise non-confidential documents should be clearly identified, and may be submitted separately to facilitate identification and handling by EPA. You should indicate if you desire confidential treatment only until a certain date or until the occurrence of a certain event.

The criteria EPA will use in determining whether material you claim as business confidential is entitled to confidential treatment are set forth at 40 C.F.R. §§ 2.208 and 2.301. These regulations provide, among other things, that you must satisfactorily show that: (1) the information is within the scope of business confidentiality as defined at 40 C.F.R. § 2.201(e), (2) that you have taken reasonable measures to protect the confidentiality of the information and that you intend to continue to do so, (3) the information is not and has not been reasonably obtainable by legitimate means without your consent, and (4) the disclosure of the information is likely to cause substantial harm to your business’ competitive position. *See* 40 C.F.R. § 2.208 (a)-(e). Emission data, as defined at 40 C.F.R. § 2.301(a)(2), is expressly not entitled to confidential treatment under 40 C.F.R. Part 2, subpart B. *See* 42 U.S.C. § 7542(c); 40 C.F.R. § 2.301(e).

If you assert a claim of business confidentiality in connection with information and documents forwarded in response to this Request for Information, in accordance with 40 C.F.R. § 2.204(e)(4), EPA is requesting that you answer the following questions with respect to any information or document for which you assert a claim of business confidentiality:

2. What specific portions of the information are alleged to be entitled to confidential treatment? Specify by page, paragraph and sentence when identifying the information subject to your claim.
3. For what period of time do you request that the information be maintained as confidential, *e.g.*, until a certain date, until the occurrence of a specified event or permanently? If the occurrence of a specific event will eliminate the need for confidentiality, specify that event. Additionally, explain why the information should be protected for the time period you've specified.
4. What measures have you taken to protect the information claimed as confidential from undesired disclosure? Have you disclosed the information to anyone other than a governmental body or someone who is bound by an agreement not to disclose the information further? If so, why should the information still be considered confidential?
5. Is the information contained in any publicly available material such as the Internet, publicly available databases, promotional publications, annual reports or articles? Is there any means by which a member of the public could obtain access to the information? Is the information of a kind that you would customarily not release to the public?
6. Has any governmental body made a determination as to the confidentiality of the information? If so, please attach a copy of the determination.
7. For each category of information claimed as confidential, explain with specificity whether disclosure of the information is likely to result in substantial harm to your competitive position. Explain the specific nature of those harmful effects, why they should be viewed as substantial, and the causal relationship between disclosure and such harmful effect. How could your competitors make use of this information to your detriment?
8. Is there any other explanation you deem relevant to EPA's determination of your business confidentiality claim that is not covered in the preceding questions? If so, you may provide such additional explanation.

You must furnish comments to the above questions concurrent with your response to this Request for Information if you have claimed any information as business confidential. *See* 40 C.F.R. § 2.204(e)(2). Pursuant to 40 C.F.R. § 2.205(b)(2), you may request an extension of this deadline. EPA will construe your failure to furnish timely comments as a waiver of your confidentiality claim, consistent with 40 C.F.R. § 2.204(e)(1). Please submit your comments to:

Andrew Zellinger
U.S. Environmental Protection Agency, Region IX
75 Hawthorne St. (ENF-2-1)
San Francisco, CA 94105

Pursuant to 40 C.F.R. § 2.205(c), you are hereby advised that information you submit as part of your comments may be regarded by EPA as entitled to confidential treatment if, when it is received by EPA, it is marked in accordance with 40 C.F.R. § 2.203(b). As required by 40 C.F.R. § 2.204(e)(6), you may assert a business confidentiality claim covering all or part of your response to these questions, as provided in 40 C.F.R. § 2.203(b). Information covered by such a claim will be disclosed by EPA only to the extent, and by means of the procedures, set forth in Section 208(c) of the CAA and 40 C.F.R. Part 2. EPA will construe the failure to furnish a confidentiality claim with your comments as a waiver of that claim, and the information may be made available to the public without further notice to you.

Per Cobb NOTES: During recent testing of various BMW ROM revisions in-house, we discovered a bug in BMW's DME coding that is isolated to two ROM revisions: 96A0B and 9780B. This issue can cause the DME to become unresponsive during the flashing process and can cause the car to become inoperable. For this reason, we will not be supporting these ROMs. To resolve this issue, we recommend that you visit your local BMW dealer to update your vehicle to the latest ROM revision available that does not contain the BMW flashing bug. Once this is done, you can install the Accessport to enjoy your added power!

Tim informed me that COBB had just made a decision to discontinue the V3 accessport for N55 BMWs due to a software update BMW had put on all their vehicles that have been to the dealership for any type of service since November 2015. This update is causing these vehicles to not be compatible with Cobbs V3 accessport. I contacted the customer to find out if he had been to the dealership since november of 2015 and he stated he has. So to avoid shipping the customer a product that would not work with his car due to this newly discovered ECU issue, I offered him a refund of the accessport. Customer then requested to get a refund on the intercooler as well since this modification would not be take full advantage of without the Accessport. I confirmed with Tim and Cobb to cancel original PO so I can send one with the updated order. - 6/17/16 - Jon Partial Refund request for \$\$1559.95 has been sent to Leona - 6/17/16 - Jon</p>
